INTRODUCTION OF XCMG

Founded in 1943, XCMG is a multinational corporation with the most comprehensive range of competitive, influential products in the construction machinery industry. Our business covers eight key areas: construction machinery, heavy trucks, mining machinery, sanitation machinery, machinery components, construction, finance, and the ICT industry.

XCMG has established a global R&D network with a total of six centers in China, the US, Germany, Brazil and India, with China national technology center at its core. In addition to a number of manufacturing bases in China, the US, Germany, the Netherlands, Poland, Austria, Brazil, India, and Uzbekistan, we possess two complete machine brands (XCMG, Schwing), and several component brands including FT, AMCA. It is the strength of this global R&D network and manufacturing operations that has made XCMG the industry leading global construction equipment manufacturer that it is today.

For more than 30 years, XCMG has been sowing the seeds of overseas development as the No. 1 exporter in China's construction machinery industry. Today, we have 42 branches and offices, 315 distributors, 526 contractors in 191 countries and regions worldwide and are still growing rapidly.

XCMG IN AUSTRALIA

Since its foundation in 2006, XCMG is gradually establishing a complete network including: local distribution, supply chain management and an integrated customer services and training. Nowadays, with one headquarter in Adelaide, XCMG Australia has 6 professional dealers focusing on construction equipment business. Meanwhile, XCMG has deep connections with mining giants like Rio Tinto, BHP and MMG in Australia.

Our local professional team and cutting-edge innovation platform guarantee that our products are carefully crafted to the smallest detail according to the diverse needs of Australian customers.

► 54.6kW powerful engine(the largest in this tonne industry)

Kubota V3307 Stage V emission common rail diesel engine with EGR, DOC, and DPF technology, XCMG has tuned it specifically for construction machinery. The engine output is significantly increased, which thereby shortens the digging cycle time remarkably. XE90U attains high performances without reducing the speed even when heavy a load is applied or when travelling on a slope.

Versatile abilities

The left 62 °and right 50 °angle swing boom, together with short tail design, XE90U can handle a wider range of loads, and can work in more restrictive spaces than traditional tail swing excavators.

AUX1, AUX2, drain oil lines, and hitch lines are standard for great multi-attachments capabilities. Specially designed blade float allows for easy clean up.

Exceptional Heavy-duty

Enhanced boom and arm, slew bearing, lower rollers, and more powerful dual speed track motors, together with dual filtration intake air system allow for exceptional heavy-duty performance.

Safety

Standard equipment on the XE90U, the anti-drop valves for boom, arm and blade prevent an elevated load from dropping unexpectedly.

► Ergonomic and Comfortable

The XE90U is designed to provide you with the best working conditions. The cab has a wide entrance door, which makes it more accessible. The OPG/ROPS(ISO 3471) cabin maximizes your safety.

Easy Access for Maintenance

► Easy Service Access

Our XE90U was developed with particular attention to easy service access. With a single access point for the daily maintenance of all main components, fuel level gauge, and refueling through the lockable cap.

Turbocharged	√
Air to air intercooler	/
Number of cylinders	4
Rated power/speed	54.6 kW/2,200 rpm
Maximum torque/speed	265 N-m/1,500 rpm
Piston displacement	3.3 L

■ Hydraulic system

	XE90U
Main pump	/
Rated flow of main pump	219 L/min
Relief valve setting pressure	30 MPa
Travel system pressure	30 MPa
Swing system pressure	23.5 MPa
Pilot system pressure	3.5 MPa

■ Oil capacity

	XE90U
Fuel tank capacity	130 L
Hydraulic tank capacity	110 L
Engine oil capacity	10 L

■ Main performance

	XE90U
Travel speed (H/L)	4.9/2.7 km/h
Swing speed	12 r/min
Gradeability	≤30 °
Ground pressure	48 kPa
Bucket digging force	64 kN
Arm digging force	41 kN
Maximum tractive force	64 kN
Boom offset (Left)	62 °
Boom offset (Right)	50 °

■ Standard

	XE90U
Length of boom	3,400 mm
Length of arm	1,823 mm
Bucket capacity	0.35 m³

■ Optional

- A- Reach from swing centerline to arm top
B- Arm top height above/below ground
C- Lift point
1. The lifting capacity is based on the ISO10567 standard.
 2. * = The maximum lifting capacity is limited by the hydraulic capacity of the machine.
 3. The lifting capacity does not exceed 87 % of the hydraulic capacity or 75 % of the tipping load with the machine on level and firm ground.
 4. The operator should be familiar with the machines operating- and maintenance manual.
 5. The lift diagrams only covers machines that are originally built by XCMG; without lifting chains and any other lifting equipment.
 6. When the excavator is used to lift or handle materials, it must comply with local regulations and be equipped with the necessary hose burst valves and an overload warning device complying with EN474-5.
